

# SUNSETS

Words and Music by : Brett Weller

*Intro:* Bb - F - I Gm - F - I

## *Verse*

Bb F  
My time is set  
Gm F  
I'm not getting any hours back  
Bb F Gm  
The minutes pass hoping all is real  
Bb F  
Did you know the cost  
Gm F  
Or was it very obvious  
Bb F Gm  
When all that's left are repeating dreams

## *Chorus*

Bb F Gm Dm C  
Ooooh I've been missing all the sunsets  
Bb F Gm Dm C  
Ooooh from how much I'm missing you my friend  
Bb F Gm F  
All the wreckage found our tears became an ocean  
Bb F Gm  
Ooooh I hope to wake up seeing you again

*Verse 2*

He said "Hey mate  
I've got your ticket to my spaceship  
You better kiss her now  
It's time to sail"  
All became so clear  
As I shot into the atmosphere  
The only fuel that's left  
Was used to get up here

*Bridge*

                  Gm                                  F          C  
There's things I just don't understand  
Gm                                  F          C  
And time don't always go as planned  
      Gm                          F    C  
I'll sail out on this horizon  
                                  Bb                                  C  
And hope that all is well where you've gone

*Chorus 2*

Ooooh          I've been missing all the sunsets  
Ooooh          from how much I'm missing you my friend  
When the lost are found  our tears turn into dancing  
Ooooh          I hope to wake up seeing you again

*End Chorus*

Ooooh          I've been missing all the sunsets (4x)
